

DAN DENVER DE LEON

FRONT-END / FULL STACK & AI ENGINEER

[Portfolio](#) | [Certificates](#) | [Github](#) | [LinkedIn](#) | +63 998 232 3125 | denverdeleon21@gmail.com

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Typescript, Tailwind CSS, Bootstrap, Next.js, React Native, TanStack Query, and Zustand
Back-End: Node.js, Express.js, PHP, Laravel, REST APIs, WebSocket, JWT (Authentication)
Database: MySQL, MongoDB, PostgreSQL, Firebase, Supabase AWS S3
Tools: Git, GitHub, VS Code, Cursor, Claude, Anti-Gravity, Figma, Postman, Vercel, JIRA, MCPs
Practices: Responsive Web Design, UI/UX Design, Cross-Browser Compatibility, Agile, API Integration

PROFESSIONAL EXPERIENCE

Jr. Full Stack Developer | KMC - Solutions | Remote **Dec 2025 – Present**

- Engineered AI chatbots for a central data-intelligence engine and its client-facing pharmaceutical SaaS platform, implementing WebSocket answer streaming with dropped-connection recovery, multi-turn conversation persistence, and inline citation parsing with markdown theming.
- Drove the V1 to V2 infrastructure migration for a competitive intelligence SaaS, resolving monorepo drift, rewiring authentication and permissions to the V2 API, and building foundational read adapters consumed across all subsequent domain migrations.
- Developed a Knowledge Graph UI from scratch to visualize complex pharmaceutical data relationships, engineering canvas rendering, dynamic layout panels, schema tabs, and interactive node-detail views.
- Owned end-to-end development of the internal admin console managing the data-collection infrastructure, building comprehensive dashboards (Collector Health, Scope Manager) with live filtering, pagination, bulk selection, and fleet-wide operational summaries.
- Built an AI Interviewer frontend from scratch, integrating agentic workflows (MCPs, custom skills, AI coding agents) to accelerate feature delivery across client applications.

Junior Full Stack Developer | MK International Trading | Onsite **July 2025 – Oct 2025**

- Contributed to the development of UI/UX and frontend designs to enhance the overall user experience and interface consistency.
- Implemented user management features across the Rider and Customer applications, and Web Admin.
- Assisted in developing core Rider App functionalities, ensuring smooth and intuitive interactions.
- Integrated real-time notifications to improve communication and engagement between users and the platform.
- Collaborated with team members through regular meetings to align project goals and ensure timely progress.

Team Leader | Freelance / Independent Contractor | Remote

- Led the development of web-based systems for multiple clients, from academic capstone projects to real-world business applications, coordinating project requirements, frontend implementation, and feature development.
- Designed and developed responsive, user-focused web applications across education, finance, e-commerce, project management, and business operations.
- Engineered complex system architectures and role-based workflows, including multi-vendor e-commerce environments, KYC document tracking, and secure financial dashboards utilizing Supabase Row Level Security (RLS).
- Delivered end-to-end solutions by translating technical specifications into high-end, animated frontend interfaces, while architecting the underlying hosting infrastructure and CI/CD pipelines for reliable enterprise deployment.

Web Developer Intern | UI/UX Team Lead | Supsoft Tech | Remote **March 2025 – June 2025**

- Received internal training in ReactJS and foundational lessons in Laravel under the guidance of the Team Lead.
- Integrated Laravel backend APIs with the React frontend using Axios to enable effective data communication across modules.
- Contributed to CertiCode, a certification platform, by assisting the frontend team with design updates and responsiveness fixes.
- Led a small team of interns in UI/UX initiatives, ensuring consistent design practices across the platform.

Education

BS in Information Technology | College of Sciences, Technology, and Communications Inc. | 2021 – 2025
